

Curriculum Vitae

Omid V. Ebrahimi

Research Fellow, PhD, [Licensed Clinical Psychologist](#)

PERSONAL INFORMATION

Address	Department of Experimental Psychology, University of Oxford
E-mail	omid.ebrahimi@psy.ox.ac.uk
Online pages	University Profile ResearchGate Google Scholar Twitter Mastodon BlueSky
Research focus	I study the events and processes leading to the onset and persistence of common mental disorders across the lifespan, focusing on how critical incidents at the national and global level (e.g., infectious disease outbreaks, economic recession) accelerate mental disorder emergence.
Highlighted skills	Clinical psychology Applied statistics Longitudinal data analysis Design and management of longitudinal population-based studies Initiator and PI of three large-scale cohort studies ($N > 5.6$ million, 20,000 and 10,000) Mechanisms of psychopathology Complex systems and network science 5 years of work experience as a clinical psychologist after graduation Interdisciplinary consortium research Research dissemination and media experience
Key publications	BJP BMC Medicine JPCS Lancet PH Science CHB CPS Depression & Anxiety Nature RP Lancet RHE Nature HB Am. Psych. BMC Med. JAD Lancet RHE JAD

TRACK RECORD IN BRIEF

Publications	Peer-reviewed publications: 68 Citations: 2539 H-Index: 26 Book chapters: 2 Articles supervised: 18 1st authorships: 15 Senior authorships: 22
Awards and Honours	Doctoral Thesis of the Year (2025) Norwegian Psychological Association TBA: Sept. 12 2025 Fellow of the New Science of Mental Disorders (2025) Early-Career Research Encouragement Award (2022) International Council of Psychologists Mentorship Award (2022) Association for Behavioral and Cognitive Therapies (ABCT) Memorial Lecture Recognition (2021) Modum Bad Psychiatric Hospital Research Dissemination Award (2020) Department of Psychology, University of Oslo
Funding	Funding obtained to date: £991 817
Teaching	Classroom lectures, seminars, and workshops since 2014 across Clinical, Social, Personality and Biological Psychology, in addition to undergraduate and graduate statistics.

EMPLOYMENT

2024 – Ongoing	University of Oxford Department of Experimental Psychology Career Development Research Fellow. Mentor: Polly Waite .
2024 – 2025	Journal of Psychopathology and Clinical Science Previously called <i>Journal of Abnormal Psychology</i> Editorial Board Fellow. One-year fellowship program to train future journal editors.
2020 – 2024	University of Oslo Department of Clinical Psychology (50%) Double-degree PhD candidate under Asle Hoffart and Sverre Urnes Johnson in collaboration with Daniel J. Bauer . PhD degree obtained April 5 th 2024. Link: Doctoral Thesis . <i>Project:</i> Adapting a dynamical systems approach to investigating resiliency against and transitions into common mental health disorders during the COVID-19 pandemic. <i>Scope:</i> This project investigated mental health disorders conceptualised as complex dynamical systems, using dynamic network models and non-linear longitudinal trajectory models to map out the processes involved in the formation and maintenance of depression and anxiety.

2020 – 2024	Modum Bad Psychiatric Hospital (50%) Clinical Psychologist undertaking specialisation degree in the treatment of adult psychopathology.
2023	University of Oxford Department of Psychiatry Visiting Fellow at the Oxford Precision Psychiatry Lab (OxPPL) of Andrea Cipriani . <i>Project:</i> Towards precision in the diagnostic profiling of patients: leveraging symptom dynamics in the assessment of mental health disorders.
2022	University of Amsterdam Section for Psychological Methods, Department of Psychology Visiting Researcher at the PsychoSystems and Psychonetrics Lab of Denny Borsboom and Sacha Epskamp . <i>Projects:</i> a) Systems-based thinking and its implications for heterogeneity in psychopathology; b) The construction of dynamic network models from panel data.
2021 – Ongoing	The Great Norwegian Encyclopaedia (Store Norske Leksikon) Section Editor for anxiety disorders, obsessive-compulsive disorders, and phobic conditions.

EDUCATION

2019	University of California, Berkeley <i>The Berkeley Clinical Science Program.</i> Exchange Graduate program in Clinical Psychology. Visiting researcher in the Idiographic Dynamics Lab of Aaron J. Fisher
2012 – 2019 2013 – 2019	The University of Bergen <i>Professional Studies in Clinical Psychology.</i> Achieved degree: Candidatus Psychologiae (Norwegian DClinPsy) Licensed Clinical Psychologist (DClinPsy obtained and approved in UK on April 16, 2025) Student researcher in INTROMAT (INTROducing Mental health through Adaptive Technology) Lab of Tine Nordgreen
2012 – 2013	<i>General Psychology.</i>
2016	The University of Hong Kong <i>Clinical Psychology Exchange year</i> Research intern at the Social and Health Psychology Lab of Cecilia Cheng
2010 – 2011	Norwegian University of Science and Technology <i>Courses from Computer Science, Information Technology, and Cybernetics.</i>

ACADEMIC AWARDS AND RECOGNITIONS

- | | |
|------|---|
| 2025 | <p>Doctoral Thesis of the Year Norwegian Psychological Association
Awarded Best PhD Thesis of the Year. Thesis submitted in 2024.
<i>Organizations' award description:</i> The Best PhD Thesis of the Year Award is awarded to a candidate who, through their doctoral work, has made significant contributions to advancing psychological knowledge. Award to be announced at the Annual Congress of Psychology by the Norwegian Psychological Association, on September 12, 2025.</p> |
| 2025 | <p>Fellow of the New Science of Mental Disorders
The New Science of Mental Disorders (NSMD) consists of leading experts in the network psychometrics and mental health field aiming to leverage complex dynamical systems and network science to transform the diagnosis, treatment, and mechanistic understanding of mental disorders. Elected as a Fellow in May 2025.
https://www.nsmdu.eu/news/introducing-fellow-omid-v-ebrahimi</p> |
| 2022 | <p>International Council of Psychologist's Encouragement for Early Career Research Award
<i>Organizations' award description:</i> The Seisoh Sukemune/Bruce Bain Encouragement of Early Career Research Award at the International Council of Psychologists recognizes outstanding early career contributions to scholarly endeavors addressing psychological issues of a multinational significance. https://icpweb.org/awards/2022-icp-award-recipients/</p> |
| 2022 | <p>ABCT's Spotlight on a Mentor Award
Association for Behavioral and Cognitive Therapies recognition to highlight excellent mentorship provided in academic community. https://www.abct.org/mentor-spotlights/omid-v-ebrahimi/ [Link to page with all previous award winners]</p> |
| 2021 | <p>Gordon Johnsen's Memorial Lecture Recognition
Keynote Speaker at Gordon Johnsen's Memorial Lecture 2021 for efforts in mapping out the mental health sequelae of COVID-19. Memorial lecture link:
https://www.youtube.com/watch?v=vUHqYC8vwj8</p> |

2020 Winner of the **Research Dissemination Award at the University of Oslo and Department of Psychology**
 Youngest recipient of the Research Dissemination award at the University of Oslo to date.
 Awarded to recognize efforts in communicating mental health science to the general public during periods of turmoil. <https://www.modum-bad.no/fikk-formidlingspris/>

PROJECT DEVELOPMENT AND LEADERSHIP EXPERIENCE

- 2023 – Ongoing **Critical Incidents and Psychological Adaptation (The CIPA Study)**
 Role: Principal investigator (PI) and project initiator together with Sverre Urnes Johnson at the University of Oslo and Modum Bad Psychiatric Hospital and Research Centre.
 About: The CIPA Study is a 15-year longitudinal critical incidents cohort study launched in February 2023. CIPA is a full-population study monitoring over 5.6 million individuals using registry and electronic health record data. Additionally, to date, over 20,000 adult participants have been recruited using a rigorous random probability sample based on Norwegian population lists from registries. The project will extend until 2037, aiming to investigate mental health before, during, and after critical events, such as economic recession, infectious disease outbreaks, climate change, and other national and global crises. Specifically, the project aims to identify the risk factors and mechanistic processes that underlie the development of mental health disorders, focusing on the transition from healthy, non-diagnostic states, to disorder states for depression and anxiety. The project further seeks to examine how critical events exacerbate the risk of mental disorder formation. The study leverages multimodal information sources, including the integration of registry data with both longitudinal panel measurements and ecological momentary assessments of its subjects. The study is one of the largest ecological momentary assessment efforts conducted to date, having recruited over 3,500 subjects recruited to its EMA arm. By analysing the granular dynamics between demographic, contextual, and psychological factors, The CIPA Study aims to provide a comprehensive understanding of the formation and maintenance of depression and anxiety over time.
- 2023 – Ongoing **The Paradox of Intent: Mapping out and addressing the psychological determinants of climate (in)action in individuals and organisations.**
 Role: Principal investigator (PI) together with Laurence Wainwright (CO-PI) at the School of Geography and the Environment, University of Oxford.
 About: Large discrepancies have been identified between reported intention (i.e., planned behaviour) of engaging in pro-environmental behaviours and concrete behavioural conduct both at the individual and organizational level (e.g., businesses and enterprises). Outside functioning as a critical incident on the societal level on its own, climate change is connected to the occurrence of additional critical events with large global impact. Employing a systems-based approach to model the constituents of climate (in)action, this project aims to delineate the interplay of organisational factors, group dynamics, and intrapersonal processes that contribute to the disparity between intention and action.
- 2021 – 2023 **Development of a protocol to for real-monitoring of patients using Ecological Momentary Assessment (EMA) in routine clinical practice.**
 Role: Project initiator, investigator, and implementation lead.
 About: This project aims to reduce the scientist-practitioner gap by implementing routine data collection protocol for real-time monitoring in real-world clinical settings to aid clinicians with data-driven assessment and treatment of patients. To date, the automated protocol is implemented and launched at Modum Bad Psychiatric Hospital, Division of Trauma (since January 2022), and is expanding to other Divisions of Modum Bad Psychiatric Hospital.

- 2021 – 2023 **Dynamic patterns of interaction between common mental health disorders and psychosocial stressors during COVID-19: A daily diary study (Extension of [MAP-19](#))**
 Role: Principal investigator (PI) and project initiator together with Sverre Urnes Johnson (Co-Investigator) at the University of Oslo.
 About: A large intensive longitudinal study involving daily measurements for 40 days of 1706 adults (i.e., 68,240 observations) to investigate depression, anxiety, and other common mental health disorders along with contextual stressors and processes related to their aggravation. [Depression sub-study published in [BMC Medicine](#); Anxiety sub-study published in [Journal of Anxiety Disorders](#)].
- 2020 – 2023 **The Norwegian COVID-19, Mental Health and Adherence Project ([MAP-19](#))**
 Role: Principal investigator (PI) and project initiator together with Asle Hoffart (Co-Investigator) and Sverre Urnes Johnson (Co-Investigator) at the University of Oslo and Modum Bad Psychiatric Hospital and Research Centre.
 [The project has so far [resulted in 35 peer-reviewed publications](#)]
 About: A large-scale national psychiatric epidemiological study on 10 061 adults in Norway spanning over 3 years and 10 longitudinal assessment waves of data to investigate the mental health sequelae tied to the COVID-19 pandemic and its mitigation protocols, in addition to factors predicting adherence to viral mitigation protocols and preventive health behaviours.

PEER-REVIEWED FUNDING, GRANTS AND STIPENDS RECEIVED

Total sum of funds obtained to date: 11 601 800 NOK (€ 1 160 180 | £ 991 817)

- Spring 2023 **Southern-Eastern Norway Regional Health Authority (Helse Sør-Øst)**
 3 560 100 NOK (356 100 Euros). Funding for project founded and initiated together with Sverre Urnes Johnson. Role: Co-PI. Funding granted for continuation of The Norwegian COVID-19, Mental Health and Adherence Project (MAP-19) using registry data. [[Link](#)]
- Spring 2023 **SpareBank 1 Sørøst-Norge (Bank Foundation in South-East Region of Norway)**
 200 000 NOK (20 000 Euros). Additional research funding for the CIPA study.
- Spring 2023 **Southern-Eastern Norway Regional Health Authority (Helse Sør-Øst)**
 5 600 000 NOK (560 000 Euros). Research grant with Sverre Urnes Johnson (PI). Role: Co-Applicant. Funding granted for the project: 'Towards Personalized Treatment of Mental Disorders: A Network Approach' [[Link](#)].
- Spring 2023 **Global Centre for Transformative Leadership**
 £ 100 000 (117 000 Euros). Research grant for The Paradox of Intent: Mapping out and addressing the psychological determinants of climate (in)action in individuals and organisations. Role: Project co-principal investigator and co-initiator with Leo Johnson and Laurence Wainwright at University of Oxford.
- Spring 2023 **Research Infrastructure Grant, Department of Psychology, University of Oslo**
 180 000 NOK (18 000 Euros) granted for research infrastructure for intensive longitudinal data collection, together with Ludvig Bjørndal and Espen Røysamb.
- Autumn 2022 **Wedel Jarlsbergs fond (Unifor)**
 100 000 NOK (10 000 Euros) granted for research stay at the University of Oxford and the Oxford Precision Psychiatry Lab of Andrea Cipriani.
- Autumn 2022 **Høyesterettsadvokat Per Ryghs legat (Unifor)**
 106 240 NOK (10 624 Euros) granted for research stay related to Visiting Fellowship at University of Oxford, Oxford Precision Psychiatry Lab.

Autumn 2022	Den grevelige Hjelmstjerne-Rosencroneske Stiftelse ved Universitetet i Oslo (Unifor) 13 300 kr (1330 Euros) for travel costs related to research stay at the University of Oxford.
Spring 2022	University of Oslo, Department of Psychology Internal Grant 47 800 NOK (4780 Euros) to hire a research assistant for the MAP-19 Project.
Spring 2022	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Bergen. <i>Granted for project continuation.</i> [Published] . 25 000 NOK (2 500 Euros). Well-being during the pandemic: A dynamical network analysis. Supervised Cand.psychol student Sara Ebling.
Autumn 2021	University of Oslo, Department of Psychology Mobility Grant 2022 100 000 NOK (10 000 Euros) mobility grant for research stay at the University of Amsterdam with the PsychoSystems and Psychometrics lab of Denny Borsboom and Sacha Epskamp.
Autumn 2021	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Bergen. [Published] . 25 000 NOK (2 500 Euros). Well-being during the pandemic: A dynamical network analysis. Supervised Cand.psychol student Sara Ebling.
Spring 2021	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Oslo. <i>Granted for project continuation.</i> [Published] . 25 000 NOK (2 500 Euros). Supervision project of master student Ole Myklebust Amundsen.
Spring 2021	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Oslo. [Published] . 25 000 NOK (2 500 Euros). Network analytic study investigating the connection between feelings of worthlessness and parental depression and stress. Supervision of clinical psychology student.
Autumn 2021	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Oslo. <i>Granted for project continuation.</i> [Published] . 25 000 NOK (2 500 Euros). Supervision project of master student Ole Myklebust Amundsen.
Autumn 2020	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Bergen. [Term Paper] 50 000 NOK (5 000 Euros). The dynamic interaction between the default mode network and the extrinsic mode network. Co-supervision of clinical psychology student.
Spring 2020 – 2021	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Oslo. 75 000 NOK (7 500 Euros). Supervision project of master student Simen Bø on investigating Psychological Interventions for Generalized Anxiety Disorder: An outcome and mediation meta-analysis of mechanisms of change during treatment.
Spring 2020	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Oslo. 25 000 NOK (2 500 Euros). Supervision project of master student Ole Myklebust Amundsen on investigating the relationship between pandemic information dissemination and mental health [Published] .
Autumn 2018	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Bergen. <i>Granted for project continuation.</i> 50 000 NOK (5 000 Euros). The effects of a blue monochromatic light intervention on evening-type individuals' sleep and circadian rhythms.

Spring 2018	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Bergen. 50 000 NOK (5 000 Euros). The effects of a blue monochromatic light intervention on evening-type individuals' sleep and circadian rhythms. (spanning over two semesters).
Autumn 2017	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Bergen. 50 000 NOK (5 000 Euros). Psychological treatment for the fear of public speaking: A meta-analysis [Published].
Spring 2017	Student research grant from Research Council of Norway and The Faculty of Psychology at The University of Bergen. 100 000 NOK (10 000 Euros). Usability and feasibility of a virtual reality exposure therapy for fear of public speaking in adolescents.

PEER-REVIEWED AND FUNDED PROJECTS SERVING AS COLLABORATOR

Spring 2025	The Dam Foundation (Stiftelsen Dam) 4 508 030 NOK (450 803 Euros). Project investigating the effect of a scalable internet-based cognitive behavioural intervention aimed at treatment-seeking patients on waitlists for psychological treatment. [Link] Role: Collaborator and Secondary Supervisor of PhD student: Alexander Ikonomeas.
-------------	---

CONSORTIUM EXPERIENCE

2023 – Ongoing	COVID Global Mental Health Consortium (CGMHC) Role: Executive Board Member. Chief Investigators: Jordan Smoller , Sarah Bauermeister , and Andre Brunoni About: The CGMHC Consortium is a large global consortium aiming to address questions about the causal impact of social containment policies on mental health across HIC and LMIC countries during the COVID-19 pandemic. The project uses innovative causal inference methods, including Target Trial Emulation (TTE), and further seeks to map out how social determinants of health (SDoH) predict differential mental health trajectories observed during the pandemic period. The participant pool across the consortium includes over 3.5 million individuals.
2020 – Ongoing	COVIDMENT Role: Consortium Co-lead in Norway as PI of MAP-19 Study. Chief Investigator: Unnur Valdimarsdóttir About: The COVIDMENT project was designed to advance current knowledge of mental morbidity trajectories in the COVID-19 pandemic, by utilizing large, data-rich population-based registry resources, biobanks, and ongoing questionnaire data with longitudinal follow-up. Participant pool across consortium includes over 565,144 individuals. https://covidment.is [Example publications: Lancet Public Health ; Lancet RH ; Lancet RH 2]
2022 – Ongoing	MITNB Consortium on Improving Validity of Time-Series Measurement in Social Sciences Role: Consortium member. Leads: Laura Bringmann & Eiko Fried About: The MITNB Consortium seeks to improve the validity of longitudinal assessments and time-series data through addressing issues such as measurement invariance, the construction of validated scales for ecological momentary assessment, and the investigation of response styles and its contextual influences over time. Link: https://osf.io/m2v38/

CONFERENCE PRESENTATIONS AND INVITED TALKS

2025	Department Psychiatry University of Cambridge, Cambridge, UK. Invited Talk Pathological cascades: Understanding the interplay between critical incidents and disorder dynamics toward preventing the onset of common mental health disorders.
------	---

- 2025 **International School and Conference on Network Science (NetSci)** | Maastricht, NL.
Invited Talk | Leveraging psychometric networks and symptom dynamics in the assessment and treatment of mental disorders. [Link](#).
- 2025 **Computational Psychiatry Lab** | University of Oxford, Oxford, UK.
Invited Talk | New Perspectives on Precision Diagnostics and the Granular Investigation of Mental Disorders.
- 2025 **14th Annual Oxford Neuroscience Symposium** | Oxford, UK
Invited Talk | Towards precision in the diagnostic profiling of patients: Leveraging symptom dynamics in the assessment of mental disorders
- 2024 **MGH Center for Precision Psychiatry** | Harvard University, Smoller Lab | Digital.
Invited Talk | Precision Diagnostics: Leveraging symptom dynamics in the assessment and treatment of mental disorders.
- 2024 **Calleva Centre for Evolution and Human Science** | Magdalen College, University of Oxford, Oxford, UK.
Keynote Talk | Global crises, mental health, and human behaviour: Understanding the psychological impact of critical incidents
- 2024 **Lorentz Center** | Leiden, The Netherlands.
Invited presentation at workshop: It's about time – Improving the measurement of intensive longitudinal data. [Link](#).
- 2024 **TOPIC Research Group** | University of Oxford, Oxford, UK.
Invited Talk | Precision diagnostics: Using symptom dynamics in the assessment and treatment of major depressive disorder.
- 2024 **The 4th World Conference on Personality Psychology** | Curaçao
Poster | Bjørndal, L.D., Nes, R.B., Ebrahimi, O.V., & Røysamb, E. (2024, April). Multiple social factors are associated with wellbeing measured cross-sectionally and six years later when accounting for shared genetic and environmental confounding.
- 2024 **Forum for Affective Brains** | University of Oslo, Oslo, Norway.
Invited Talk | Towards precision in the diagnostic profiling of patients: Modelling psychological phenomena as systems of interconnected variables. [Link](#)
- 2024 **Magdalen College** | University of Oxford, Oxford, UK.
Talk | The network approach in psychology and the mental health sciences.
- 2024 **Eating Anxiety Treatment Lab** | Digital, University of Louisville, Louisville, USA.
Invited Talk | Unpacking heterogeneity in symptom relationship patterns across mental health disorders.
- 2024 **oRANGE Lab** | University of Oxford, Oxford, UK.
Invited Talk | A demonstration of novel network invariance techniques for the comparison of differential dynamic mental health processes present across subgroups and individuals.
- 2023 **International Council of Psychologists** | Digital, Global Event.
Early Career Award Recipient Talk | Towards precision in the diagnostic profiling of patients: leveraging symptom dynamics in the assessment and treatment of mental health disorder. [Link](#)
- 2023 **New Science of Mental Disorders Consortium, Annual Conference** | Vaeshartelt Castle, Maastricht, The Netherlands.
Keynote Talk | Towards precision in the diagnostic profiling of patients: leveraging symptom dynamics in the assessment and treatment of mental health disorders. [Link](#).

- 2023 **The Alan Turing Institute** | Data Science for Mental Health
Invited Talk | Towards precision in the diagnostic profiling of patients: leveraging symptom dynamics in the assessment of major depressive disorder. [Link](#).
- 2023 **The COVID Global Mental Health Consortium (CGMHC)** | Digital, Harvard University
Invited Talk | The COVID-19 pandemic as a critical incident and its impact on common mental health disorders.
- 2023 **Society for Psychotherapy Research (SPR)** | Digital
Invited Talk | Precision diagnostics: symptom dynamics as a means of personalised assessment of mental disorders.
- 2023 **Donders Institute, Radboud University** | Lifespan Cognitive Dynamics Lab
Invited Talk | The identification of critical transitions and individual differences in the onset of depression during critical events using a dynamical latent change score mixture approach.
- 2023 **Society for Ambulatory Assessment** | Amsterdam, The Netherlands
Talk delivered by co-author based on common project | The Acceptability and Utility of Ambulatory Assessment: Insights from 2792 Participants in A Large-Scale Daily Diary Study.
- 2023 **University of Oslo | Studying Change in Anxiety and Depression** | Oslo, Norway
Invited Talk | Non-linear longitudinal changes and critical transitions in depression during the COVID-19 pandemic.
- 2022 **European Association for Behavioral and Cognitive Therapies** | Barcelona, Spain. [Link](#).
Symposium | Mechanisms in psychotherapy: A complex system approach.
Presentation: Depressive symptomatology during the COVID-19 pandemic and the psychopathological processes intertwined with depression onset.
- 2022 **Norwegian Psychiatric Association: Psychiatry Weeks Conference** | Oslo, Norway.
Talk | The impact of the pandemics and periods of infectious disease on the mental health of adults.
- 2022 **Norwegian Institute of Public Health | National Meeting for the Investigation of Adherence to Viral Mitigation Strategies during Pandemics**
Invited talk | Using machine learning and the ising model to predict vaccine hesitancy.
- 2022 **COVIDMENT International Consortium**
Invited Talk | A Critical Period for Pandemic Adaptation: The Evolution of Depressive Symptomatology across a 24-Month Period during COVID- 19 Pandemic.
- 2022 **National seminar for Double-degree PhD students** (Nasjonal nettverksseminar for Prosjekt Dobbeltkompetanse) | Solstrand Hotel, Bergen, Norway.
Invited Talk | A complex systems approach to the co-emergence of common psychiatric disorders: Mapping out the comorbidity of between depression and anxiety.
- 2021 **Autumn Conference of The Federation of Norwegian Professional Associations (Akademikerne)** | Oslo, Norway.
Keynote Talk | Forecasting the long-term impact of the pandemic on mental health.
[Event link](#). Presentation link: <https://www.youtube.com/watch?v=Ma9-W3t2WM4#t=82m54s>
- 2021 **University of Oslo's Researcher Competition**
Keynote Talk | The role of psychology and human behaviour during pandemics
[Event link](#). Oslo, Norway.

- 2020 **Association for Behavioral and Cognitive Therapies** | Philadelphia, PA (Digital)
Poster | Curreri, A. J., Ebrahimi, O. V., Rosellini, A. J., Farchione, T. J., & Barlow, D. H.
(2020, November). Convergent validity of the Multidimensional Emotional Disorder
Inventory across cognitive behavioral therapy. <https://doi.org/10.13140/RG.2.2.10996.78727>
- 2020 **National seminar for Double-degree PhD students** (Nasjonal nettverksseminar for Prosjekt
Dobbelkompetanse)
Invited Talk | Mental health and adherence to mitigation strategies in the Norwegian adult
population during the COVID-19 pandemic. Solstrand Hotel, Bergen, Norway.
- 2018 **Research Days Symposium at The University of Bergen**
Invited Talk | 'A virtual reality exposure scenario for the treatment of social anxiety disorder:
Preliminary results'. Bergen, Norway.
- 2017 **Pecha Kucha Challenge – Department of Psychology, University of Bergen**
Invited Talk | 'The development of a virtual reality exposure protocol for social anxiety
disorder.' Program [link](#). Bergen, Norway.

TEACHING

Reference letters: [\[Reference letter from teaching activity at the University of Oxford from 2022 to 2024\]](#)

[\[Reference letter on teaching activity from 2014 to 2018 across Introductory Psychology Courses including Social Psychology, Personality Psychology, Methods in Behavioural Science, and Developmental Psychology\]](#)

[\[Reference letter on teaching activity from 2017-2018 in Quantitative Methods\]](#)

[\[Reference letter on teaching activity in Psychopathology Course from 2021-2024\]](#)

Overall teaching evaluations and student feedback ratings (2017-2024)

Average feedback scores across classes and all taught ($N = 321$) students.

- Pedagogical ability of instructor: 4.94/5.00 | Instructor's quality of feedback on assignments: 4.67/5.00
- Relevance of taught content: 4.93/5.00 | Accessibility and contact with instructor: 4.79/5.00
- Content preparedness of instructor: 4.91/5.00 | Instructor's teaching was engaging: 4.86/5.00

- Educational value of instructor's classes compared to other classes: 4.64/5.00
- Instructor's class improved my learning and development: 4.84/5.00
- Proportion of students rating class content to be at the optimal level: 94.18%
- Proportion of students rating the assigned workload dosage to be suitable: 94.85%

Systematic student feedback since 2017:

Course-specific quantitative and qualitative feedback directly from the students per semester (In Norwegian)

Feedback on advanced workshops:

- [Spring 2024: Workshop: An Introduction to network approach in the psychological sciences](#)

Classes, courses, and workshops taught:

2024	<p>An introduction to the network approach and its applications in the psychological sciences</p> <p>Modelling of psychological phenomena using networks and complex systems approaches. Total hours of workshop: 32 hours Class size: 15-20 students Role: Workshop instructor Level: Predominant composition of post-docs, PhD students, and university professors.</p>
2024	<p>Delivering personalized and data-driven psychological treatment and assessment: A workshop for clinicians</p> <p>Collecting real-time person-specific data as a basis for assessment and intervention. Total hours of workshop: 6 hours Class size: 7 attendees Role: Workshop instructor Level: Clinicians: Psychiatrists, clinical psychologists, specialist clinical psychologists, and psychiatric nurses.</p>
2023	<p>University of North Carolina at Chapel Hill via Center for Statistics</p> <p>Mixture Modelling and Latent Class Analysis with Daniel J. Bauer and Doug Steinley Total hours of course: 40 hours Class size: 20-30 students Role: Assistant Teacher Level: Predominant composition of PhD students, post-docs, and other graduate students.</p>
2022 – 2025	<p>University of Oxford</p>
2025 – Ongoing	<p>A16819: Individual Differences and Clinical Psychology</p> <p>Total hours per semester: 53 hours Teaching: 8 hours Administration: 45 hours Class size: 20 students Role: Lecturing, delivery of tutorials, assignment evaluation Tasks: Teaching (large lectures) and small-group tutorials Level: MSci and Bachelor's</p>
2025 – Ongoing	<p>Core Practicals: Qualitative and Quantitative Methods for Clinical Psychology</p> <p>Total hours per semester: 168 hours Teaching: 18 hours Administration: 150 hours Class size: 70 students Role: Module Lead and Lecturer Tasks: Teaching, curriculum development, organisation, coordination of teaching assistants, assignment and exam evaluation Assessment & Marking: 60-70 exams per year Level: MSci and Bachelor's</p>

2024	<p><u>A16830: Affective Science</u> Total hours per semester: 9 hours Teaching: 1 hours Administration: 8 hours Class size: 20 students Role: Lecturer Tasks: Teaching and exam evaluation Assessment & Marking: 8-10 exams Level: MSc</p>
2022 – 2024	<p>MSc Program in Sustainability, Enterprise and the Environment Mental health, stress, and resiliency: Leveraging a complex systems perspective to understand (un)sustainable psychological states in students. Total hours per semester: 5 hours Teaching: 2 hours Administration: 3 hours Class size: 15-25 students Role: Lecturer Tasks: Teaching Level: Master Student feedback score: 4.1/5.0 (Scale: 5: Excellent; 4: Very good; 3: Good; 2: Fair; 1: Poor)</p>
2023 – 2024	<p>MSc Program in Sustainability, Enterprise and the Environment Examination and performance anxiety in the student population. Total hours per semester: 5 hours Teaching: 2 hours Administration: 3 hours Class size: 15-25 students Role: Lecturer Tasks: Teaching Level: Master Student feedback score: 4.1/5.0 (Scale: 5: Excellent; 4: Very good; 3: Good; 2: Fair; 1: Poor)</p>
2020 – 2025	<p>University of Oslo</p>
2020 – 2024	<p><u>SV9106: Research Communication</u> Total hours per semester: 3 hours Teaching: 1 hours Administration: 2 hours Class size: 50 students Role: Lecturer Tasks: Teaching about research dissemination across media platforms. Level: PhD</p>
2020 – 2025	<p><u>PSYC3300: Psychopathology Across the Lifespan</u> Total hours per semester: 15 hours Teaching: 3 hours Administration: 12 hours Class size: 40-60 students Role: Lecturer Tasks: Teaching Level: 3rd-year students in Professional Studies of Clinical Psychology (Master level)</p>
2021	<p><u>PSYC4315: Psychopathological Assessment in the Adult Population</u> Total hours per semester: 90 hours Teaching: 18 hours Administration: 72 hours Class size: 8-12 students Role: Lecturer Tasks: Teaching and evaluation of students through assessments of term presentation Level: 4th-year students in Professional Studies of Clinical Psychology (Master level)</p>
2020 – 2021	<p>PSYC1302: Introduction to Clinical Science and Practice Total hours per semester: 15 hours Teaching: 3 hours Administration: 12 hours Class size: 40-60 students Role: Lecturer Tasks: Teaching Level: 1st-year students in Professional Studies of Clinical Psychology (Undergraduate level)</p>
2014 – 2016 & 2017 – 2018	<p>University of Bergen</p>
2017 – 2018	<p>PROPSYMET: Introduction to Statistics in Psychology Total hours per semester: 48 hours Teaching: 12 hours Administration: 36 hours Class size: 20-25 students Role: Assistant lecturer for 2 cohorts of students Tasks: Teaching, organization, assignment and exam evaluation. Level: 1st-year students in Professional Studies of Clinical Psychology (Undergraduate level)</p>
2014 – 2016 & 2017 – 2018	<p>PSYK112: Social Psychology and Personality Psychology Total hours per semester: 36 hours Teaching: 12 hours Administration: 24 hours Class size: 10-30 students Role: Seminar teacher (i.e., small-group teaching by advanced senior students to junior students) Tasks: Small-group teaching, organization, assignment and term paper evaluation Level: 1st-year students in Professional Studies of Clinical Psychology (Undergraduate level)</p>

PSYK113: Introduction to Methods in Behavioural Research

Total hours per semester: 18 hours | Teaching: 6 hours | Administration: 12 hours |

Class size: 10-30 students | Role: Seminar teacher | Tasks: Small-group teaching, organization, assignment and term paper evaluation

Level: 1st-year students in Professional Studies of Clinical Psychology (Undergraduate level)

PSYK114: Developmental Psychology, Cognitive Psychology, and Biological Psychology

Total hours per semester: 54 hours | Teaching: 18 hours | Administration: 36 hours |

Class size: 10-30 students | Role: Seminar teacher | Tasks: Small-group teaching, organization, assignment and term paper evaluation

Level: 1st-year students in Professional Studies of Clinical Psychology (Undergraduate level)

SUPERVISION

2024 – Ongoing	Supervisor of PhD (DPhil) student Pin Chen University of Oxford Together with Lucy Bowes
2024 – Ongoing	Supervisor of PhD (DPhil) student Sakshi Rajesh University of Oxford Together with Eleanor Leigh
2024 – Ongoing	Secondary supervisor of PhD student Guðrún R. Guðmundsdóttir Maastricht University Together with Lotte Lemens , Anne Roefs , and Eiko Fried
2023 – 2025	Secondary supervisor of DClínPsy student Stefano Belli [Thesis submitted June 13 th , 2025] University College London Together with Ciaran O'Driscoll Thesis: Using Network Analysis to Identify Processes of Change in Low-Intensity CBT Interventions for Emotional Disorders
2023 – Ongoing	Secondary supervisor of DClínPsy student Thomas Penny University College London Together with Ciaran O'Driscoll
2025 – Ongoing	Secondary supervisor of PhD student Alexander Ikonomeas University of Oslo Together with Sverre Johnson and Marianne Birkeland
2025 – Ongoing	Supervisor of MSci student Maria Ilie-Niculescu University of Oxford
2025 – Ongoing	Supervisor of MSci student Gabrielle Moran University of Oxford
2024 – Ongoing	Supervisor of MSc student Mikaela Dizon University of Oxford
2024 – Ongoing	Supervisor of MSc student Olena Khailenko University of Oxford
2022 – 2023	The Dynamic Relationship Between Well-Being and Related Processes During the COVID-19 Pandemic: A Large-Scale Intensive Longitudinal Network Study of the General Adult Population [Published]. Main supervisor for the Cand.psychol thesis.
2022 – 2023	Investigating patterns of interactions between complex PTSD symptoms and its maintaining mechanisms using a dynamic network approach. [Published] Main supervisor on study for first-year PhD student.

2021 – 2022	<i>Daily Dynamics of Parental Mental Health: Investigating Depressive Symptoms and Negative Parental Experiences</i> [Under review: Preprint] Main supervisor for clinical psychology student.
2022	Symptomatology, risk, and protective factors of gaming disorder: A network analytic approach [Published]. Co-supervisor for master thesis, University of Hong Kong.
2020 – 2021	<i>Psychological Interventions for Generalized Anxiety Disorder: An outcome and mediation meta-analysis of mechanisms of change during treatment.</i> Main supervisor for two master students.
2020 – 2021	<i>Predictors of parental burnout during the COVID-19 pandemic</i> [Published]. Main supervisor for Cand.psychol. student.
2020 – 2021	<i>Investigating the routes of comorbidity between depression and parental stress</i> [Published]. Main supervisor for Cand.psychol. student.
2020 – 2021	<i>Insomnia symptoms during the COVID-19 pandemic</i> [Published]. Main supervisor.
2021 – 2022	<i>Mental well-being during the COVID-19 pandemic</i> [Published]. Co-Supervisor for Cand.psychol student.
2020	<i>The interaction between extrinsically and intrinsically driven brain networks: A systematic review</i> [Term Paper] Co-supervisor for Cand.psychol. student. Co-supervising with: Professor Kenneth Hugdahl
2020 – 2021	<i>Information Dissemination and the COVID-19 Pandemic: The Relationship between Different Information Sources and Symptoms of Psychopathology</i> [Published]. Main supervisor for master student.

Grant review

Spring 2025 **University of Oxford** | Brasenose College Research Fund

Other committee work

Spring 2025 **PhD hiring evaluation committee**
COPE Research Team, Department of Psychology, University of Oslo

Autumn 2023 **Research assistant hiring committee** with Dr. Laurence Wainwright
School of Geography and the Environment, University of Oxford

Spring 2022 **PhD hiring evaluation committee**
COPE Research Team, Department of Psychology, University of Oslo

Autumn 2021 **Post-doc hiring evaluation committee**
COPE Research Team, Department of Psychology, University of Oslo

Spring 2020 **Post-doc hiring evaluation committee**
Department of Psychology, University of Oslo

During undergraduate studies

2015 – 2016 &
2017 – 2018 **Leader of the student well-being and social facilitation organization**
Department of Psychology, University of Bergen

2014 – 2015 **Member of the ‘Forum’ organization for academic development**
An organization inviting researchers and professors to hold guest lectures aimed at promoting the academic development of students beyond the mandatory curriculum.
Department of Psychology, University of Bergen

2014 – 2015 **Financial manager for the psychology student magazine ‘[Katarsis](#)’**
Department of Psychology, University of Bergen

2013 – 2014 **Member of the student well-being and social facilitation organization**
Department of Psychology, University of Bergen

CLINICAL WORK

2020 – 2024 **Division of Stress and Traumatic Disorders, Modum Bad Psychiatric Hospital**
Clinical psychologist in employment 50% next to PhD to obtain clinical specialist degree.
Work with individual therapy (8 patients weekly) and group therapy (2x groups of 9 patients).
Patient group: Patients diagnosed with PTSD, Complex PTSD, and other trauma-related disorders and dissociative disorders. [Clinical hiatus Spring of 2023 due to full research semester related to research visit at the University of Oxford]

2019 – 2021 **Institute of Psychological Guidance (IPR)**
Clinical Psychologist in 60% (3 days per week) employment autumn of 2019 working with depression and anxiety (individual therapy), shifting to 20% employment (one evening shift per week) for the years of 2020-2021.

2019 **Advanced Clinical Training, UC Berkeley Psychology Clinic and Assessment Center, University of California, Berkeley**
Advanced training in Cognitive Behavioural Therapy next to studies and research at the university clinic, Department of Psychology, University of California, Berkeley.

2017 – 2018

Advanced Clinical Training, University of Bergen

Advanced training at the polyclinic of the University of Bergen in Cognitive Behavioural Therapy and Emotion-Focused Therapy.

OTHER RELEVANT WORK EXPERIENCE

2018

Center for Anxiety & Related Disorders, Boston University

Summer internship: Research intern working for Dr. [David H. Barlow](#) and Dr. [Todd J. Farchione](#) on the development of a group-based format and an Internet-based format of a transdiagnostic cognitive-behavioural treatment (The Unified Protocol for the Treatment of Emotional Disorders).

2017

Aleris Center, Region East

Cognitive milieu therapy to increase the well-being of orphan adolescent asylum seekers.

2014 – 2015

Sandviken Psychiatric Hospital, Emergency Unit.

Assistant at an in-patient psychiatric hospital emergency unit.
